SERIES

USB 2.0 High Speed Device Cable

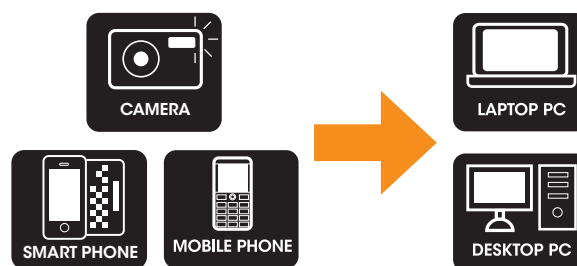

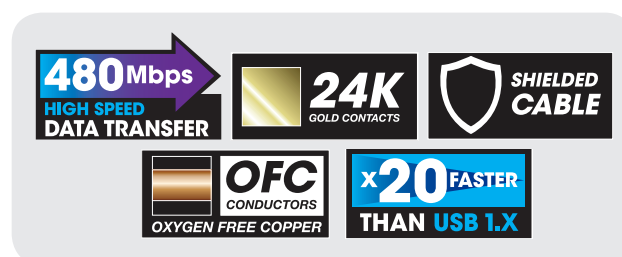

A plug to micro B plug

Product Description

Connect your Digital Camera, Smartphone, Mobile Phone or other USB 2.0 peripheral to your Desktop or Laptop PC. Superior cable design for a wide range of mobile devices, delivering high speed data transfer rates and performance.

Features & Benefits

- Connects any USB 2.0/1.x device with a micro USB B socket to a Desktop/Laptop PC or USB Hub
- Carries data and/or power between devices (dependent on devices connected)
- 24K gold-plated contacts ensure a superior, more durable connection compared to regular nickel-plated contacts
- **High Speed data transfer rate - up to 480Mbps** - 20 times faster than previous USB 1.x standard
- Ideal for use with mobile devices requiring fast data transfer rates for video and music transfer
- Oxygen Free Copper (OFC) conductors minimises signal loss and distortions that can reduce data speeds
- Shielded cable minimises interference from external radio (RFI) and electromagnetic (EMI) sources
- PVC outer jacket protects internal conductors from wear-and-tear with integral strain relief jackets
- Colour-coded connectors for easy identification of connected peripherals
